

Game: Volcanos and Craters

Equipment Needed:

- 20 floppy cones (typical orange soccer cones) *more cones as the number of players increases

Space:

- Stage space

Set Up: In the playing zone on the stage, set up 10 cones laying normally (volcano) and 10 cones upside down (crater)

People Needed:

- 2 teams of 3-4 players or as space and number of students allows

Objective: Be the team to make the most volcanos or craters before the time runs out.

Game Play:

- Players are divided up into 2 teams. One team is trying to make all the cones regular, which makes volcanos and the other team is trying to flip them upside down to make craters.
 - Set a timer and players start flipping cones into volcanos or craters based on their team.
 - When the timer is up count how many volcanos and craters. The team with the highest number wins!
-
